

## The 82' Football Frenzy

*The 82' Football Season for the Gaffney Indians was one of the most heartbreaking tragedies of the decade. The Indians blood, sweat, and tears went into making what people thought would be the State Champions. But this would not be...*

When something big is accomplished, in your life, an event, or a celebrated win, it never goes away. People will FOREVER remember what happened in 1982 just how they will always remember 2021 Gaffney 2021 football; STATE CHAMPS!! In 2021, the Gaffney Indian football team SMASHED the competition and took home the nice, sweet victory. It was such a euphoric moment for our small town it can never be forgotten. Back twenty years ago in 1982, the football team almost had that rewarding, satisfying, rewarding feeling. After an entire season of nothing but wins, after win, after win. The first game, according to the 1982 yearbook which recorded information from each game that year, was against Dorman, and due to our rock-solid defense at the time, we won the first game with ease (1-0). At Wade Hampton

a 2-point conversion, then proceeded to win by an on-side kick which led the Indian to victory. Next, at Dreher, their butts were once again for the second year in a row handed to them with a score of 42-0 ending with no losses (2-0). The Rock-Hill game was a glorious victory due to the hype of the two first half touchdowns and Rock-Hill being previously undefeated (3-0). Homecoming for the school year of 1982 was during the Chester AAA Cyclone game which the Indians proceeded to win with a 5-0 score and going up another victory to (4-0). Next at Lancaster, according to the 1982 Gaffney High School yearbook, the Indians struggled during the first part of the game going against the formerly unbeaten 6th ranked Lancaster school, however, prevailed non the less and beat them with a score of 31-0 and going up to (6-0). Next

at Northwestern for what seems millionth time, faces against an undefeated team, only to prevail and emerge the victors of the game with a score of 28-7 and going up to (7-0). At Boiling Springs in Region II-AAAA competition, 4 touchdowns and a total of 175 yards were ran by a young man named Johnny Foster which heavily contributed to the 38-7 absolute domination of Boiling Springs bringing the Indians to (8-0). Next up; Union where Gaffney proceeded to meet everybody's expectations by slaughtering the opposing visiting school with a score of 21-6 and going up to (9-0). This next game against Spartanburg was a little tense with the Indians slightly pulling ahead with a score of 10-7 and a smart play to take two of Spartanburg's minuses for scores, however, needed an interception late in the fourth quarter to keep the Indians on top going

on ahead to an undefeated number of (10-0). Lancaster came back for a round two however they had improved a lot and the Indians had a difficult time with the score being 14-7 and the Gaffney Indians taking yet another victory home. Dorman was absolutely in shambles after being beaten with a score of 24-3 the second go-round and which moved them into upper state finals bringing the Indians to (12-0). For the final game before the state championships, the Indians went against Spartanburg for

the second time and with a 44-yard field goal and an 82-yard punt, the Indians pulled ahead with a score of 10-6 and going up to (13-0). State Championships were something everybody was looking forward to. The hype built up; smack talk ensued and in the end the Gaffney Indians lost to Berkeley at the AAAA Division I Championship at the William Bryce Stadium. The score ending as 18-15 the Indians would end the 82' season (12-1) an almost perfect season.

## 92' Fashion Trends

Let's go back in time! Where may you wonder? All the way back to 1992 when the fashion and trends were nothing like today's diversity and style. The bold clothing choices range from velvet, wind-breakers, bell-bottoms and denim to basic things like crop tops and platforms we wear still today. They even wore things like shoulder pads, shrunken hoodies, and denim flower bucket hats. The style back then was defined by bold colors and style choices. Meanwhile today, we don't tend to be as flashy and groovy as the 90's! The hair styles were no different, from the beautiful Mariah Carey curls to the crazy wild lion's mane! Hair was an essential part of any outfit from any time, they had to make sure the crazy hair matched

the crazy clothes! The 90's were really a mash up every style from grunge, bold and bright, basic, punk and all the above. The diversity is very similar to nowadays where every individual person has their own unique style. An absolute ICON and stylish influence for the 1992 fashion craze was Mariah Carey! From her MTV appearances to her on stage performances, her outfits always set the new standard for the current and up to date 90's trends. Typically, though, Mariah loved to wear sleek, minimalistic styles whilst still absolutely destroying that 90's aesthetic! Woman of this time were absolute icons with every outfit. It didn't matter if they were going to school, the local mom and pop-shop, or hanging out with friends. The effort put in for

every day looks was astronomical but paid off. THE DENIM TAKEOVER!! Denim was sickeningly popular with denim EVERYTHING. Jeans, shirts, jackets, shorts, hats etc. A very popular example of a specific jean type was the Wide-leg jeans which are all known by their slag term "baggy jeans". The plague of the 90's was denim to the extreme. Most men, were heavily inspired by Will Smith's fashion style on his famous sitcom "The Fresh Prince of Bel-Air" during the 90's. Will Smith wore a lot of bold statements, baggy clothes such as wind-breakers, denim, flannels, and bright T-Shirts which inspired a lot of men's trends all throughout the 90's. Brands like Dickies, Chuck Taylors, and Raiders helped add to the 90's hip hop fashion scene with their additions to mainly men's clothes with items like pants, new styles of shoes, and a lavish variety of hats. We still see many of these brands and clothing styles represented throughout many people's daily fits and lifestyle even today. Clothing trends may die off, but somebody will always keep them alive and wear them with pride.

## Wreck-It-Ralph Review

**Shyanne Senchantixay**

The Disney Movie Wreck-It Ralph first came out October 29, 2012. It starts in an arcade and it shows a video game called Fit-It Felix, where a guy named Ralph smashes everything and Felix has fix it. Then he starts to hate being the bad guy all the time, so he leaves. Even

though it was his job to be the bad guy. So, he left the game on a bus to the surge protector and walked around to the where different game characters come together. He left the game and went to explore the other games, that's where he met Vanellope, a little girl who was trying to win the race. He realizes that no one believes in her. They

both wanted to be better people in this movie so, they team up to help Vanellope win the race. In between all that they meet some friends on the way, but they also make an enemy with the king from Vanellope's game. He was trying to make her not win because he wanted to be king at any cost. The movie shows them going

Felix joins them because he wanted to find Ralph to bring him home. They meet another character Sergeant Calhoun who is in a game where monsters will eat you if you do not kill them. The little monsters escape out of the game and go into Vanellope's game and started to destroy it. So, the team get together to help the game

go back to normal. They all come together to kill the monster and the king. Then they had the race, Vanellope wins in the long run, and become the queen of Sugar Rush. Felix and Ralph go back home to their game and Sergeant Calhoun goes back to hers. The gaming world back to normal...
